

Have you ever been denied healthcare or experienced difficulties when accessing the NHS?

Would you like to make awareness and help change policy on access to healthcare?

## Join National Health Advisors Group

National Health Advisors are migrants, refugees and people seeking asylum who have experience of facing barriers in accessing healthcare or who is interested in promoting healthcare among migrant communities.

You will choose however and whatever you want to do to promote healthcare access; this could take form of

- attending trainings,
- delivering trainings to doctors or migrants
- writing an open letter, an article, a poem, anonymous testimonies
- or you can be at steering group of a healthcare campaign

Healthcare is  
a human right
