Pwnc | Subject: Free public transport for asylum seekers and refugees

Annwyl Jane

I am a member of a local refugee support group, Hay, Brecon and Talgarth Sanctuary for Refugees. We raise funds for essential items and one of the issues we are regularly asked to fund is public transport for refugees and asylum seekers, particularly for children who need to travel to school. Many of the children are asylum seekers who have to move to new accommodation at short notice, so they fall in and out of Local Authority eligibility for a bus pass.

I greatly welcome the provision of free public transport to the Ukrainian refugees. Please would you extend this to all refugees and asylum seekers.

This would assist greatly in terms of equality and access to services, as well as being in line with Welsh Government policies on road building and air quality.

Many thanks.

Yn gywir
